PROFESSIONAL SUMMARY

Result-driven **Senior Front-End Developer with 14+ years of core industry experience** specializing in translating complex design concepts into high-performance, cross-browser, and responsive web applications. Expert in modern HTML5, CSS3/Tailwind CSS, JavaScript, and modern component design architectures, with ongoing hands-on advancement in React.js. Proven track record of architecting and shipping 50+ international commercial projects across UK, Europe, Australia, and Canadian markets with optimized web vitals and mobile-first responsiveness.

TECHNICAL SKILLS

- **Core Front-End:** HTML5, CSS3, JavaScript (ES6+), DOM Manipulation, Responsive Web Design (Mobile-First)
- **CSS Frameworks & Architecture:** Tailwind CSS, Bootstrap 3/4/5, Flexbox, CSS Grid, Cross-Browser Compatibility
- **Web Performance & Engineering:** Core Web Vitals Optimization, Page Speed Optimization (<1.5s loads), SEO Semantic Markup
- **Version Control & Build Tools:** Git, GitHub, VS Code, npm, Vite
- **Currently Learning & Exploring: React.js** (Functional Components, JSX, Hooks: useState, useEffect, Component-Driven Architecture)

PROFESSIONAL EXPERIENCE

RedReefPixel

Place: Kolkata, India

Senior Front-End Developer | *January 2020 – Present*

- Engineer and maintain high-performance, mobile-first commercial web applications and portals for international clients (UK & Europe) using HTML5, CSS3, Tailwind CSS, and modern JavaScript.
- Translate complex web specifications and requirements into clean, semantic, and reusable front-end code with 100% responsiveness across all device breakpoints.
- Optimize asset delivery, caching structures, and rendering bottlenecks to achieve consistent Core Web Vitals compliance and sub-1.5s load speeds.
- Actively develop component-driven user interfaces and transition personal workflow libraries into **React.js**.

Web Front End Developer

Dream Computer

Place: Kolkata, India

Front-End Developer | *July 2012 – January 2020*

- Developed front-end codebases for client web portals, corporate sites, and commercial web platforms across Switzerland, Canada, Austria, and Australia.
- Implemented cross-browser compatibility standards across legacy and modern browser engines (Chrome, Firefox, Safari, Edge).
- Built scalable responsive layouts using Bootstrap and modular CSS architectures.
- Handled front-end debugging, performance profiling, and production code deployment.
